

# GUI WORKSHOP

With PySide6 and Qt Creator  
Run by Kaylee Molin

Thursday 17 July, 10 am – 12 pm,  
Cancer Centre Meeting Room 1, DD Block

Prerequisites: Basic Python, GitHub account,  
additional setup as outlined in [Github Repo](#)

Learn how to create your own Graphical User Interface  
(GUI) for viewing medical images in Python!

Full workshop details: [Github Repo](#)  
Workshop slides: [GUI Workshop Slides](#)

Please bring a personal laptop to follow along with the  
tutorial.
